Source: Canadian Bankers Association, Table includes data from all VISA & MASTERCARD issuers.

(1a) As at last day of the fiscal year-end

(1b) As at last day of the fiscal year-end, including accounts with balances paid off every month.

(2) Reported total for the fiscal year.

(3) Percentage of outstandings as at fiscal year-end.

(4) Total of Net Retail Volume (\$ sales) and cash advance volume (\$).

(5) Merchants accepting VISA and/or MASTERCARD. Note that merchants accepting both cards have been reported by each plan. To estimate # of merchant outlets accepting VISA or MASTERCARD, divide Merchants Outlets by 2 and multiply by 1.1

(6) Effective October 31, 1991, a new interpretation of "90 days & over" was adopted. This resulted in a one-time reduction in the delinquency ratio of approx. 0.2%.

(7) One issuer has made reporting changes which contributed to the increase in the number of merchant outlets.

(8) One issuer has made reporting changes which caused the number of cards in circulation to decrease.

^R - Revised
